The "Physical" Effect of
a Certain Mental attitude.

- 3H. Just as in the case of so called Benevolent Stars
The Act of Prayer leads To Positive Astral and therefore
Positive Physical Experience. In The Case Of Malevolent Stars
When What some call "Charity" Has Been exercised against
The backdrop of The World- after Wards Have been exhausted
Not in a Normal Way, but in a State of Rapture
~~The Standard of Prayer eliminating material conditions~~
~~The Result is the Removal of the~~
~~material body - Its~~ ~~ability to maintain~~
This State of affairs By Hard Work and By Sorrow
Also The Reverse side of This Coin - Reverse the Love
of Perceiving Existence as a Whole is The Limit
of The Material Perspective ~~and~~
~~Perspective of Material Existence~~
~~and~~ ~~the~~ ~~material~~ ~~body~~ ~~is~~ ~~the~~ ~~fundamental~~ ~~substance~~ ~~of~~ ~~several atomie~~
indivisible Whole. Clearly Those who Have Gone On to
Perceive Themselves as Whole make it Possible for us
To Do likewise in Degree. Even if neither ~~we~~ nor
They are conscious of their cliteration - Making sense
not The Fundamental - not What Every thing Reduced To
A materialist would have, but On The contrary it
is that which All The very Fundamental Substances
~~that~~ "Become" when UNIFIED. All of this Is Evidenced to
me by thinking By the fact Mans are less frequent as If less necessary
3A. In a Republic - The fact of The Plebian vote ~~is~~
~~from~~ ~~them~~ would Be more of a Blessing to them

(2)

If They would use it in a Way much Different Then
They Think its to Their Advantage. Not for the Abstract -
~~For Things~~ For Things which may Theoretically Benefit Them in
The long ran - For what Else but Politics but the Concrete,
By Its very Definition? I'm thinking of The Roman Patronage
System. Why Should a supposedly free man not Be allowed
to sell his ~~vote~~?

~~and/or which
Person Jonathan
says is much approachable.~~
Philo of Alexandria anticipated me in a Way I had
Supposed myself somewhat Original - For He Separated
The "Gods" of us Imperfect Creators - which ~~are~~
~~Our Mind Superimposed The Categories~~ ~~of~~ 3
Persons Over - ~~the~~ Taking Each a Moment for
~~the~~ Embodied Minds To Perceive - From The Divine
Nature, and Put The Logos or Intellectual Principle
as Chief of all The Forms Just as I had Placed in him
The Origin ~~of~~ All Creative Power. Philo Places next in
The Order ~~of~~ Power The much Eloquence of
Creative Goodness which ~~is~~
~~I have called~~ ~~The Soul of the World~~
and the Imagination and ~~the~~ Physical Substance
He correctly identifies the Tetragrammaton and Majesty, the
Epithet "Nob" he gives to the Reflection of the former in our Souls

(3)

Individually - while He admits The Entire whole is reflected which is the Meaning of The Angels which move upward on Jacob's ladder, just as The other Virtues which Bind not Soul to God but Soul to Body are [REDACTED] formally caused by that same logos as are The former Virtues. For The Reason [REDACTED] that The logos is Both Author of All later emanations and The Comprehension of The World which perceives All - All is called Both The River and The Cup-bearer - as I've noted But not Directly referencing Scripture as does [REDACTED] Philo. He again denies The Objectivity of These Hypostases - when He calls the "Shadow" Son as Nicholas of Cusa has Observed "In God a All of God." He Expresses The Same Opinion I Once Did that The Tree and Fruit of The Garden reference The Ideal Form and not The Material Creation [REDACTED] of The Same. He correctly observes The Addition of Money to The Mosaic Sacrifice indicated The Sacrifice of Things Pleasant and Things Valuable [REDACTED] as The End of Rational Fulfillment - an Observation I've made Several Times, But again, not Referencing [REDACTED] The Same [REDACTED] Scripture as He

1A. Itself True That Abraham, Isaac and Jacob are Faith, Hope and Charity respectively It must Be not only [REDACTED] In The Analogical [REDACTED] sense But also in The sense of Theological Virtue I described Before in which Progress of The Will etc What is

One of the most profound erotic fantasies
ever captivate my Imagination was
ONE in which the subject [REDACTED] to all
appearances was unaware of being recorded. And now I
find myself too, [REDACTED] my reputation being all but
destroyed by the internet - not in the same or even a
similar way, but in that it has become impossible
to outrun my past. I say that just to say that...
On one hand my punishment fit... ironic, On the
other hand it's not perhaps the same, i.e. not harshly
ad at it could be good Shows at One his Justice
and His Mercy - And that His Wholeness - In ONE
[REDACTED] fell swoop.

3A Material Things are not merely brought into existence
By Divine Words but literally ARE themselves Divine
Words - and just as from the Divine Mouth they come -
into that same 'Office' they return - and so sacrifice
the same food by which we eat - the Divine feeds itself of
itself. But since we eat [REDACTED] spoken words we are helped and but by speaking we
develop that [REDACTED] into pleasure. To try the Bodily Substance or Desire Body [REDACTED]
To try the Bodily Substance or Desire Body
is transferred from a terrestrial to an Astral Ether, if merely
to sat the Physical Substance received into itself reward or
and of it seeks anything in that place it may find solace etc

5

The placing itself parallel to accidents in other substances
still experiencing by the terrestrial.

This applies to those experiencing privations at a higher level which we may experience as vampires or higher still of those ~~that~~ irrational vultures that would stop at nothing short of full collection.

It might be worth noting that ~~the~~ ~~the~~ ~~the~~ when
perused over ~~for~~ ^{now} own sake seems not to offer
any substance from ~~the~~ ^{the} pleasure of Astral Travel
especially ~~when~~ when considered of an
and of Charity flowing from the maintenance of ~~the~~
contemplation. And this might also be in some sense
the cold & alermighty - flowing from the memory
of the low contemplative ~~and~~ ^{and} spiritual world
Especially human substance like the relics of saints,
which mediate goods to us. ~~the~~ ^{the} world unexplored.

Supposedly of the same matter is that this - which we know of Playma - ought to be the experience really of Number 1 Nation - this is the fusion of this and Fusion

Nation. This latter, which is to say

State in the sense of Hierarchy or "Nation" function

best counterintuitively of something anti-Imperialist,

i.e. of something which keeps Employment

National by awarding contracts to those best able to

serve all people - The monopolizing aspect of

Procedural, Mutualism. On the other

hand, State in the sense of Family or

that in recent times has been called social

something which again

disrupts intuitively, discourages immigration of the

other end. State composed which compete

with private safe living standard in a way that makes

it impossible for one to influence & has

every end to loose its compete

and in a way that keeps us each and all

the same starting point and destined same capital

Also keeping a larger area must be bound at

The level of golden age for any individual to

experience possession consciousness - which is to

say, kingship, number 1 nationhood, must

not only reside at the highest level of that but

at the previous level of social evolution - it must

stay there for the individual to profit

3A. I've come to the conclusion that Prophecy is not likely to abrogate what it predicted. That would be the case if the things illuded to were already demand in the world now and instead [redacted] of them being contradicted.

3A. Another way of thinking of how The State undermines itself is the way it now functions to Distribute rather than Receive Honors. In this way every Subculture is able to manufacture its own Social Currency. In a same way Our regression to Primitivity is further shown by what [redacted]

[redacted] Goods we consider to be Sacrosanct - i.e. immune from violence, poison from participation in physical confrontation - not Patricians - not Peasants - not The Best - But the Least & yet, at what the custom & practice [redacted] that it to say uncivilized Germania. It would also point out that when I've called the Individual an end [redacted] of state I did not mean The ultimate sense of The Individual as just the individual having fully developed his capacities by negative desperation realized himself something general transcending both the [redacted] Universal in Particular - To realize further that everyone else it exists in a similar condition - for every individual to be in himself an entire world and so furthermore had self evident to maintain the develop all individuals to

And Moreover By Maintaining His [REDACTED] Letter we avoid The error of Hamonides who though Recognizing Divine Power and [REDACTED] Essence Could not disceern His Immense Presence In all things which - Though He denies it we left him somewhat exposed of the error of Aristotle - as if that some Individual were not at One The Generality of the World as If Every ONE Else, But Perhaps Be doomed to occupy every role In a sort of Eternal recurrence. He had obliged however to reverse The meaning of Scripture - making it of a Moral [REDACTED] Father Not a Rational character and making Great Theophany of a Sign of Greatness and not ignorance of There was no other way of Divinity reaching Down into matter so save Through The Instrumentality [REDACTED] [REDACTED] of Us.

SA. A reading of Margaret Sanger's Pivot of Civilization confirms for me the truth of my ideas, which as usual are not nearly as original as one might suppose. From the perspective of [REDACTED] capital - an increase in surplus population etc. From the perspective of worker - an increase in mechanized capital itself - They can point the finger at each other all they want ~~war~~ but what they really want to get at the end of the day is opposite sides of the same coin. Neither one is any position to remedy the other as neither are ever caused in the strictest sense of the word to begin with. Rather they are [REDACTED] the occasions for the existence of misery on both sides whether it is the form of the greatest abstinence or forced celibacy of the elite or the animalistic indiscriminate breeding of the proletarian antithesis. The art of social then, it is to force the elite into more procreation and therefore less material comfort and the working class into less procreation and they more material comfort. Then they would opt for on their own - just optimizing the [REDACTED] efficiency and talents of both. The former with the latter is tantamount to the benefits of an isolated, small population but without the benefit

(2)

& Diversity while the latter without the former
is tantamount to a large unely population but
with [redacted] the mitigating benefit of being diverse - the
balance betwixt the two [redacted] the optimal conditions
for sexually selective evolution - of Darwin demonstrates
in his Origin of Species. One it nation without society,
while the other it society without nation. [redacted]
Primitive Aboriginal Virtue without any real spiritual development
or else [redacted] deep metaphysical clarity lacking cardinal virtue.
[redacted] The responsibility of this balance too falls
squarely on the woman since she as I've demonstrated elsewhere
it the [redacted] source of all occasional causes
her offspring experience. [redacted] It
would be [redacted] daughters of men who of anyone finds
themselves [redacted] to [redacted] [redacted]
without the potential to receive all that is provided
by the "Son of God." [redacted] These relationships
are the natural - not social - but natural limitations of class
were not the work of God but of [redacted] flesh even
when they are the other way around and suggest a misogynistic
desire to depict a man's own incompleteness. [redacted]
Almost artistically [redacted] implicate the woman
in a different way than her counterpart of the [redacted]
[redacted] She must herself
be degraded in either nature or the former a cap of nature
in the latter and it is her that would be able to sense
the impropriety at the most visceral level. IT IS SHE before

(Condom)

He That would know what FF anything must
Be done. For The Elite Then Everything about nation
must Be made to Be more Communal and less formal
so as to plague intellect and diminish responsibility
whereas On The other End Natural family planning
The idea of children at a Parliament for lack of
control should Be propagated In any Society That would
make itself a Utopia - and this, not only Because
men of those predispositions [redacted] are just
as irresponsible with Whatever Birth control Is available
To them as They are with The marriage Bed To Beginner
and so all it seems To Do Is kick The Problem up a
Level But also Because in making [redacted] any form of
Population control [redacted] which more directly
contravenes Life a [redacted] Personal decision etc, looks
in That it Loses its Decidedly Social Character. In
This flat case [redacted]
It becomes Worthless For Whatever Symptoms of Oppression
Like Excess Population It seems To Control since [redacted]
cause [redacted] misery - a Self-indulgent character
remains. And so while I [redacted] agree with her
Almost Completely [redacted] and admire The
Skillfull way She Identified labor and capital [redacted]
Both [redacted] of co-conspirators In The miserable State of the
World and [redacted] named The Working Class Women as
The Source Of Either Solution or The continuing problem
I must disagree with The proposed solution [redacted]

Matter of Prudent Judgment (4)

But what interests me even more is the notion which I have heard elsewhere of well - that this [redacted] Ideation might in some way be destined to form the substance of a new religion - a religion of mine - since to deal with the regeneration of life or resurrection of mankind would succeed the Christianity of our current epoch at our Lord's return - whether or not this is the life I will wait for He himself to inform me. But if I be allowed to speculate I should assume that if this gives direction to our work and [redacted] can become for us a type of rapture [redacted] even tempted to say the bad policies of the church regarding sex are a [redacted] temptation. a principle of obsolescence [redacted] built into the bones of Christianity [redacted]

I am glad to be pursuing socialist thought among thinkers who are not so dissimilar [redacted] in mind [redacted] to myself as [redacted]

[redacted] others' more material and atheistic have proven to be. I have long been suspecting that the spirit of [redacted] that thought has nothing to do with the humanity or altruism it claims kinship with but rather that its legacy is [redacted]

[redacted] an excuse to experience some comradery or togetherness in the absence of a real true nation - or at [redacted] Margaret Targor offered in a similar vein a movement centered not around an objective concept of "goodness" so much as the idea we are not the ones that [redacted]
